

Concrete Collection Tray

The Concrete Collection Trays are designed to limit environmental damage wherever a concrete pump is being used on site. This low profile tray fits under the concrete pump to collect spillage washout water and concrete waste.

- Low profile tray with tapered sides
- Reinforced base and sides
- Fitted with crane lifting and up-ending lugs
- 4-way fork pockets allowing access from all sides
- Optional wheel kit available on request
- Optional disposable plastic liner
- Enamel paint finish
