

## Stainless Steel Platform Trolleys

The Stainless Steel Platform Trolley is built for heavy-duty transport in demanding commercial settings such as food processing, pharmaceutical and healthcare industries. Its spacious platform provides ample room for baskets, trays, and supplies while supporting loads of up to 550kg.

- Smooth-rolling wheels for seamless movement on multiple surfaces
- Fitted with 2 x 160mm PU swivel castors (with brake) and 2 x fixed castors
- Material: Stainless Steel (304 grade of stainless)
- Finish: Polished
