

Collapsible Tyre Stillage Cage

The Collapsible Tyre Stillage is suitable for high-volume tyre inventory and bulk warehouse storage. Built from durable steel with a zinc plated finish, this stillage offers a 1000kg capacity and ensures long-term performance. It maximises floor space by folding down to a collapsed height of 310mm.

- Fits a wide range of common passenger tyres with diameters between 400mm and 900mm Enables safe handling during transport when stacked 2 high (fully loaded) (on a truck / dynamic loading)
- Maximises storage efficiency when stacked 6 high (fully loaded) (static)
- Allows up to 20 collapsed units to be stacked vertically, freeing up valuable floor space
- Supplied with a GPS tracking enclosure
- Foot-lift Locking Bar allows easy folding of the stillage side without bending
- Material: Steel
- Finish: Zinc Galvanized
