

Semi-Auto Stretch Wrapping Machine (with Scale)

The Semi-Auto Pallet Wrap Machine with Scale provides controlled stretch wrapping and integrated pallet weighing in one workstation. It uses soft-touch electronic controls, automatic height detection, adjustable wrap settings and a built-in load cell scale system with digital display and printer. This reduces manual wrapping time while improving load handling, wrap consistency and warehouse dispatch efficiency.

- The Semi-Auto Stretch Wrapping Machine with Scale offers advanced features for efficient pallet wrapping
- Electronic screen with 'Soft Touch' control
- Variable film carriage and turntable speeds
- Features an electronic weighing scale with 4 x load cell installed at each corner of the Machine
- Digital display scale unit with a weighing accuracy of $\pm 0.05\text{kg}$
- Scale unit printer
- Photocell eye for automatic height detection
- Automatic and Manual wrapping programs
- Soft-start and stop turntable drive
- Ramp is supplied as an optional extra
- Ramp can be fixed to the table at 3 different angles
- Ramp is great for pallet truck access
- Ramp Finish: Powder coated Blue and light grey
- Adjustable friction brake stretch system
- Heavy-duty industrial chain driven turntable
- Forklift relocation slots for easy machine transportation
- Eliminate the need for labour intensive, inefficient manual hand wrapping
- Rugged steel construction for long-term reliability
- Standard 12 month warranty
- Accepts a 3 inch/76mm machine wrap core
- Turntable speed: 1-12 RPM
- Stretch film size: 500mm
- Power supply: 240v, single phase
