

Verdex Stretch Film Machine

The VERDEX stretch film machines have been designed and built with economy, efficiency and safe operation in mind and can wrap pallets up to 2.4 metres high.

These stretch wrapping machines will give you all of the features you need to wrap pallet loads quickly and efficiently with auto photocell eye detection to detect your pallet height for auto wrapping functions.

The MR2400 can dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping due to the powered pre-stretch feature.
