

Gas Spring Monitor Arms

The Gas Spring Monitor Arms are available in single or double options to support flexible screen positioning. They allow easy adjustment of monitor height and viewing angle to help improve ergonomic comfort at desks and workstations. Ideal for offices, control rooms, workstations and commercial environments to suit different desk setups.

- Gas spring system allows smooth height adjustment
- Available in single or dual monitor arm options, allowing monitors to tilt, swivel, and rotate independently
- Helps position screens at a comfortable viewing height to reduce neck and back strain
- Quick-release VESA plate allows fast and simple monitor installation
- Durable aluminium construction with an anti-scratch finish
- Supports clamp or grommet mounting for flexible desk installation
- Material: Aluminum
- Finish: Powdercoated
- Colour: Matt Black
- Max Rotation: 360°
- Screen Size Supported: 17" – 30"
- Tilt Range: +15° – 85°
- Swivel Range: 90°
- Screen Rotation: 180°
- Maximum Height Range: 390mm (Arm Fully Extended from Desk Top)
- Maximum Forward Extension: 500mm
