## Heavy Duty Longspan Shelving (Mesh Shelves)

- Heavy duty longspan shelving system
- Suitable for storing small parts and archives
- Similar to pallet racking in a smaller profile
- Supplied with 3 adjustable shelf levels (additional shelves available)
- Upright End frames are supplied assembled for quick setup
- Standard depths: 450mm | 600mm | 900mm
- Other sizes and configurations available on request
- Step beams allow steel shelves to sit flush
- Add 60mm per frame to calculate overall bay length\*
- Castor Kit adds 125mm to overall height

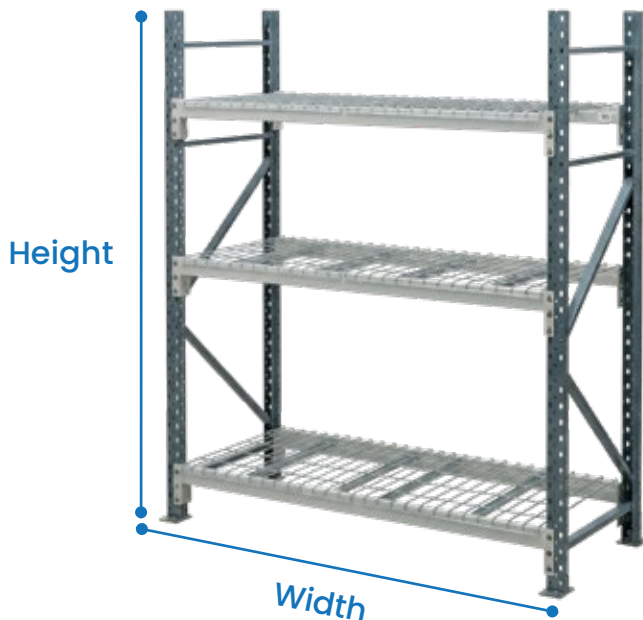

### Capacity:

- 800kg per level (1200mm beam)
- 390kg per level (1800mm beam)
- 290kg per level (2400mm beam)

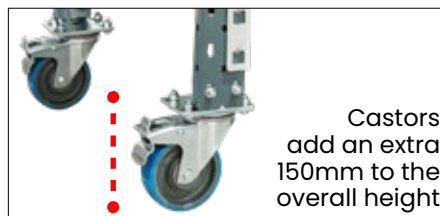

## How to Measure these Units:

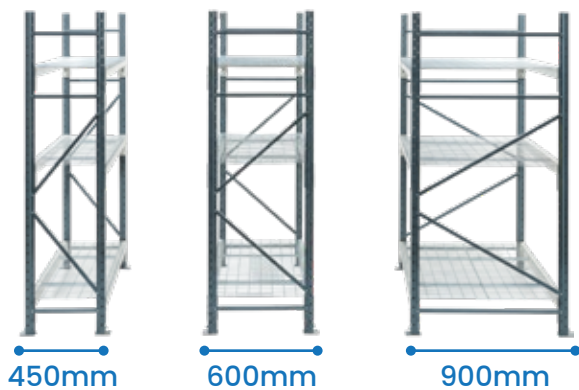

### Starter Bay

### Add-On Bay

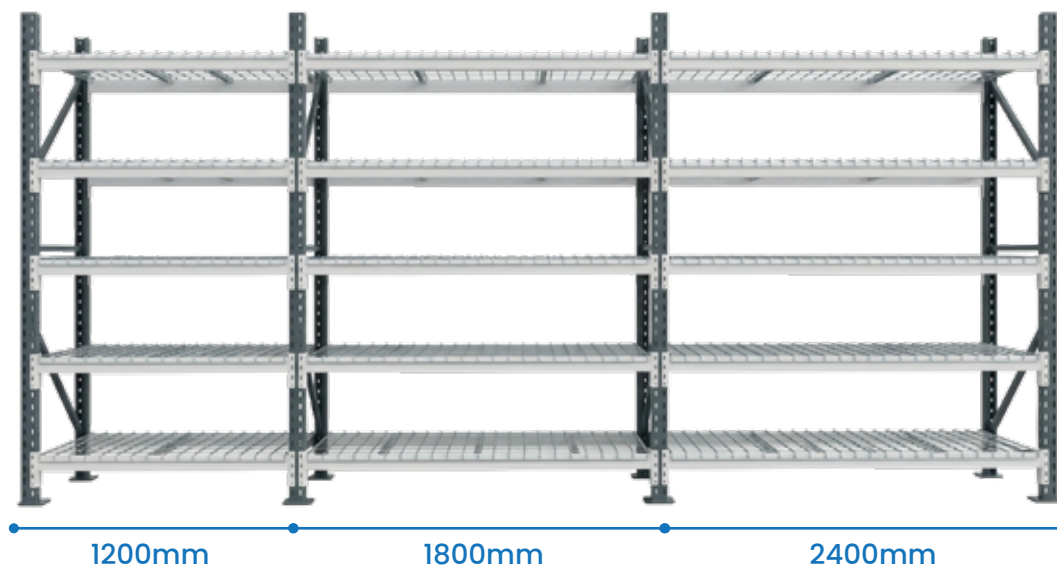

### Shelf Depth Options

### Height Options

### Bay Length Options
