

Gas Cylinder Storage Bays (900mm Deep)

- Secures and restrains gas cylinders for safe indoor or outdoor storage
- Helps keep cylinders organised by type and fill level
- Chain anchor points restrain each cylinder individually
- Modular design allows additional bays to be added as storage needs grow
- Can be bolted to the floor for added stability
- Supplied with gas cylinder storage safety signage
- Fast and simple flatpack assembly for easy transport and installation
- Zinc-plated finish helps protect against corrosion
- Designed to align with AS 4332 Australian Standards

| Code | Details | Internal Dimensions WxDxH (mm) | Overall Dimensions WxDxH (mm) | Unit Weight (kg) |
